**Subject:** RE: O&M costs

Hi Sharon,

The cost estimates for the ELG rulemaking include solids handling and disposal.

Very interested in the Merrimack info, but I wouldn't look at it until next week at the earliest.

**Hi Ron,**

**If you get a chance, would you tell us if O&M costs (assessed for different treatment technologies for the rulemaking) include solid waste removal/disposal?**

**Also wanted to let you know that we received Merrimack Station's response to our 308 letter regarding their FGD-VCE operations (resulting in ZLD). I was planning on sending you a copy but I know you are quite busy. Would you like to see it sooner or later, after the rule is proposed?**

**Thanks,**
